EXPERIENCE

nFactorial Incubator 2023, Almaty — *iOS Developer*

June 2023 - August 2023

Built qal.ai – an iOS app that generates roadmaps for any given topic. See more in the projects section.

Daryn.Online, Almaty — *Frontend Developer Internship*

June 2022 - July 2022

- Worked on exam preparation page UI
- Admin dashboard

EDUCATION

Nazarbayev Intellectual School of Physics and Math, Almaty

2019 - 2025

Junior, high school education

PROJECTS

Nazar AI — *AI student engagement tracker*

Developed a PyQT5 application with OpenCV to track students' attention during the class using FER and HPE algorithms. Teacher navigates the camera to the class and can watch the dashboard realtime.

Kelbet Til— *Better Kazakh literature*

Kelbet Til is a service that hosts books from the curriculum of NIS for Kazakh literature. Apart from reading, students can open an AI chat to ask any questions about the book's plot.

7000+ users, https://kelbet-til.kz/

qal.ai — *AI educational roadmap generator*
Qal.AI is an innovative web app that enhances learning by generating related graphs for your topic.

https://qalai.vercel.app/

SKILLS

Tensorflow

Scikit-learn

Pandas

Matplotlib

OpenCV

AWARDS

NIS Hackathon 1st place

AIESEC Hackathon 1st place

Kazakhstan Youth Summit – Shark Tank 1st place

Alash League Hackathon 2nd place
